

At Equent we understand that privacy is important and are committed to ensuring that personal information is processed in accordance with applicable data protection / privacy laws. The information provided in this privacy policy ("Privacy Policy") is designed to help you understand what data we collect from users of the Augmented Furniture App ("Augmented Furniture") and the Augmented Furniture website and how we use and share this information. This Policy is part of and subject to our Terms of Use for the Augmented Furniture Services. Please read it carefully. By using the Augmented Furniture Services you are agreeing to be bound by this Policy in respect of the information collected about you via the Augmented Furniture Services and you consent to the use of that information as set out in the Policy.

If you are a user ("**User**") of our services – such as an augmented reality application that enables the exchange of content in the public space, if you have access to augmented reality layers which may contain content, such as text, pictures, graphics, 2D/3D models, videos and links as well as images required for the detection and tracking of features to display content ("Markers"), jointly referred to as the "Third Party Content", and other applications, features, software, databases and services (together: "Services"), if you generate content ("User Generated Content"), then it is unavoidable that some personal data will be collected. In case we collect the data, we will use, store and process such data only to the extent described in this Privacy Policy.

If you are a publisher ("**Publisher**") of Third Party Content, functionalities and features, then we will collect personal data through the tools, applications, software, websites and systems, which we provide for the purpose of enabling you to create Third Party Content as well as for the marketing and distribution of the Third Party Content, or through other contacts between you and Equent (any services we provide to Publishers are referred to in the Augmented Furniture Terms and Conditions for Publishers as "Services" as well; the context in which the term is used in this Privacy Policy indicates the type of services we provide).

When using or contributing to any of our Services – whether in capacity as Publisher or User – you consent to the collection, transfer, manipulation, storage, disclosure and other uses of your information as described in this Privacy Policy, irrespective of which country that you reside in or create information from. This Privacy Policy is part of and subject to the Equent Terms and Conditions of Use ("T&C"). We reserve the right to change this Privacy Policy at any time. New versions of the Privacy Policy will be made available through augmentedfurniture.com/legal. Should any new version of the Privacy Policy contradict with this version of the Privacy Policy, then the new version prevails.

Should you have any questions concerning our Privacy Policy, please contact us at info@augmentedfurniture.com or by regular mail: Equent S.r.l., Via Melzi d'Eril 6, 20154 Milano, Italy.

1. INFORMATION COLLECTION AND USE

USERS

1.1. This Privacy Policy sets forth the terms under which we will collect and process your personal data when we provide the Services. For a number of our Services, we sometimes require that you create a User account with us. Please read section 3 of this Privacy Policy.

1.2. If you are a User, whenever you open a product form the catalog when using our Services, you will be connected automatically with the server of the Third Party Content provider. Our system transmits an anonymous hash, which cannot be traced back to the device used to activate the Services. Alternatively, you may access the Services through a user account you have set up with a Publisher or another third party. We will not store any personal data that relate to your user account with that third party, and we advise you to read the privacy policy applied by such third party, as these terms will apply to you. Please note that these third parties may apply different policies with respect to cookies.

1.3. We allow you to login through social networks that you have linked to, provided you have fully complied with their requirements on creating a user account, and that you refer to such networks as part of your profile.

1.4. All Third Party Content which you can access through the Services is provided to you by those third parties. In most cases, we do not process Third Party Content; however, for some features it is unavoidable that some personal data will be collected through our websites and the Services or through other contacts. By accessing Third Party Content, you grant us permission in respect of the processing of any of your personal data that may be contained therein.

1.5. Third parties, such as Publishers, are the controllers with regard to the processing of your personal data in connection with your use of the Third Party Content, and, in that capacity, are solely responsible for compliance with applicable data protection and other legislation and regulation with regard to such processing.

1.6. Our servers will aggregate, store and process data in respect of the Marker. You grant us permission in respect of the processing of any of your personal data that are contained therein.

1.7. By exchanging, providing and/or uploading User Generated Content, you grant us permission in respect of the use, storage and processing of any of your personal data that are contained therein. You should be fully aware that any personal data of third parties that are contained in your User Generated Content are subject to data protection and other legislation and regulation and you are fully responsible for compliance with these laws and regulations. We require that you exercise due care when exchanging personal data of others as part of User Generated Content.

1.8. Whenever you return to the Publisher or third party's server, it will recognize you as a repeat visitor, but – unless you provided your personal data, such as username or IP address –, the system will not be able to trace you.

1.9. Only you determine the purposes for which you collect, use and disclose content, including User Generated Content, through the Augmented Furniture websites or the Reality Browser; you are the controller with regard to these data.

PUBLISHERS

1.10. If you are a Publisher, we sometimes require that you create a Publisher account with us. Please read section 3 of this Privacy Policy. When you use our platform as a Publisher, we will use and process your personal data, such as your name, username, company name, password and email address, as necessary for the marketing and distribution of the Third Party Content. Equent is the controller with regard to this processing.

LOG DATA AND LOCATION DATA

1.11. Our servers automatically record information created by your use of and contribution to the Services ("Log Data") and images the Publisher supplies to Equent in order enable the extraction by Users of features for recognition through the Services. Log Data may include information such as your phone ID, browser type, click paths and search terms. Interactions between Users and Publishers may also be included in Log Data. We will aggregate and anonymize the Log Data, add up all individual events and only use the aggregate data for statistical purposes. We remove the Log Data every two months.

1.12. We will process location data for which you gave us your consent, including but not limited to your GPS-location, which were provided by you or which we receive from GPS location service providers but only

for as long as this is necessary for delivering our Services and/or to the extent required or permitted by applicable law.

2. COLLECTION, USE AND TRANSFER OF PERSONAL DATA

2.1. We may use Your Information for all or any of the following purposes:

- to enable Us to provide You with access to all features and functionality of the Augmented Furniture Services and to enable You to have access to the Content;
- to enable You to create and share User Generated Content;
- to enable the Publishers to receive the product's selections and configurations that You made (eg. by pressing the "I Want It" button), in order to allow them to send You their best quotations.
- to provide You with service related updates;
- to provide You with personalised content and promotional communications that You are happy to receive from the augmented Furniture Services;
- to provide customer service in relation to Your use of the augmented Furniture Services;
- generally to administer, support, improve and develop the Augmented Furniture Services, including automatically updating the Augmented Furniture App on Your device and detecting, preventing, or otherwise addressing fraud, security or technical issues; and
- as otherwise stated in this Policy.

2.2. We may use the collected personal data for the following purposes: (i) the provision of access to the Services, including the Reality Browser, and subsequent transmission of Third Party or User Generated Content, including us extracting features from Reference Images to provide the Services; (ii) enabling you to share your information and communicate with other users; (iii) sending you electronic messages containing service or – when you have consented – promotional communications about us; (iv) improvement and technical administration of the Augmented Furniture platform and/or Services; and (v) the distribution of the Third Party Content and/or User Generated Content.

2.3. As part of the Services, the information you provide to us may be transferred to countries within and outside of the European Economic Area ("EEA"), because of the provision of access to and subsequent transmission of Third Party Content or User Generated Content that is present on servers outside the EEA. Your personal data may be transferred to hosting parties, or other service providers in countries, such as the United States, where they have a different level of data protection. Before transferring your personal data outside of the EEA in this way, we will take all steps reasonably necessary to ensure that your privacy rights remain protected.

2.4. We reserve the right to access and disclose individually identifiable information to comply with applicable laws and lawful government requests, to operate our systems properly or to protect us or our (other) users. We may also disclose your personal data to third parties in the event that we sell or buy any business or assets. We reserve the right to disclose anonymized User account data to the prospective seller or buyer of such business or assets. If Equent or substantially all of its assets are acquired by a third party, personal data about you as a customer will be one of the transferred assets.

3. USER ACCOUNT

3.1. Whether you are a User or Publisher, by creating a User or Publisher account, you allow others, including Equent, to identify you. In order to open an account, you must provide us at least with the following information: username, password and email address and any specific information, such as a virtual profile if you create one. Apart from this, we may collect data from you regarding the following categories: additional contact information, device, payment, marketing, sales, and user generated information profiles, inventory and storage information. If you are a Publisher, we may, in addition to the aforementioned data, also collect public contact and bank information, and information about layers. We will use, store and process such data only to enable you to activate and use the Services. Every time you use a Augmented Furniture user account to log in at a Publisher, you will be requested to consent that your log data and some of your personal data are transmitted to that Publisher.

3.2. Once you have opened a user account you may exchange, provide, and upload additional information in the profile section, which will be visible to others. Additional personal data will be added to your account when you use the Services. By doing so, you consent to the further dissemination, processing, removal and storage of profile section information. If you share information about yourself or others by means of your user account this will be visible to anyone also using the Services. If you wish to exchange, provide or upload information about other individuals, you are advised to obtain their consent first.

4. DATA SECURITY

We have implemented appropriate technical and organizational security measures pertaining to the storage and provision of personal data, in order to, amongst others, prevent access to your personal data by any unauthorised persons. Your personal data shall only be accessed by authorised staff. These staff members are obliged to preserve the confidentiality of all the information that comes to their attention, unless disclosure is compulsory by law or necessary for the fulfilment of their task.

5. COOKIES

Equent uses cookies that keep track of your activity on our website in an effort to show you useful, relevant advertisements. This means that you may see targeted ads for Augmented Furniture services on other websites you visit, depending on your activity on our website.

We believe in giving you control over how your information is used. You can opt out of having your data collected for the purpose of receiving retargeted ads (whether served by us or on our behalf). You can also opt out of receiving relevant ads from some of our advertising partners. If you clear your browser cookies, you will need to opt out again. If you use multiple browsers or devices, you will need to opt out on each browser or device.

What is a cookie?

A cookie is a piece of data that is stored on a computer, tablet or mobile device that allows that device to be recognized at a later time when browsing the Internet. Cookies placed by Equent or other third-party services do not identify you personally as an individual; they only recognize the device you are using and do not harm

your device in any way. Cookies allow for several important features on the Augmented Furniture website, including allowing you to more easily log in to the AF CSM and create campaigns. They also help to keep the website secure, remember your preferences and personalizing content on the website so that it is more relevant to you. It is your choice whether or not to have cookies placed on your device and you can easily control the placement of cookies.

Why does Augmented Furniture have a cookie policy?

We have implemented a cookie policy as part of our initiative to comply with recent legislation but also to make sure that we are open and clear with you about what happens when you come to our website. Using cookies allows us to provide you with the most optimal user experience and deliver relevant advertising and special offers.

What happens if I don't allow cookies?

If cookies aren't enabled on your computer, tablet or mobile device, your experience on the Augmented Furniture website may be limited. For instance, you may not be able to purchase credits or receive personalized tips to help you create your campaigns.

How do I disable/enable cookies?

In order to disable/enable cookies, you will need to change your Internet browser settings. You'll find instructions for managing cookies on some of the most used Internet browsers below. For information on managing cookies your tablet and/or mobile device, please consult the documentation or online help specific to your device.

Google Chrome

1. In the Settings menu, select "Show Advanced Settings" at the bottom of the page.
2. Select the "Content Settings" button in the Privacy section.
3. This page informs you about cookies and allows you to set which cookies you do and do not want. It also allows you to clear any currently stored cookies.

Mozilla Firefox

1. In the Tools menu, select "Options."
2. Select the Privacy tab.
3. Select "Use custom settings for history" from the dropdown. This will display cookie options where you can enable or disable cookies.

Internet Explorer 6+

1. In the Tools menu, select "Internet Options."
2. Select the Privacy tab.
3. You will see a privacy settings slider with six settings that allow you to control the amount of cookies to be stored on your device: Block All Cookies, High, Medium High, Medium (default), Low, and Accept All Cookies.

Safari

1. In the Settings menu, select "Preferences."
2. Open the Privacy tab.
3. Select your preferred option from the "Block Cookies" section.

Other browsers

For information on how to manage cookies in other browsers, please consult the documentation or online help specific to your browser.

How do I disable/enable third-party cookies?

Augmented Furniture uses various third-party services which may independently use cookies on Augmented

Furniture's behalf. For example, we use external analytics services which may use cookies to better understand what is popular and what is not. Our website may also contain content embedded from YouTube, Vimeo or other third-party sites which may use their own cookies.

Google Analytics provides us with anonymous statistical information about visitors to the Augmented Furniture Website. They process IP addresses and cookies to calculate how many page views we have, how many visitors we have, what browsers they are using, and (in some cases) in which country, city or region they are located. All of this helps us better target our resources to maximize compatibility for a majority of our users.

If you would like to opt out of Google Analytics cookies, you can do so by clicking on this link: <https://tools.google.com/dlpage/gaoptout>

6. YOUR RIGHTS

You can request to access your personal data and you can verify/correct their accuracy. You can also request the removal of your personal data. Upon verification of your identity, we will rectify, erase or block your personal data, if these data are incorrect or if you no longer want us to process these data. Due to the requested removal, it is however possible that we cannot ensure the provision of (part of) our Services.
